of Rule 20 of the G.O. no 6-105/C.R.B. 1-34-1 dt 3-7-1934 viz, "for one appointment in the General list, there shall be two in the Special list."

In this Connection, it may be mentioned that the latest available figures for the Education Department in respect of men having permanent lien relate to June 1933, but information as to the strength of various Communities in the Education Department with reference to men actually holding posts is available for the year ending 31st December 1933.

The position of Brahmins and Backward Communities in the Education Department is shown in a tabular form both for the year ending 30th June 1933 and for the year ending 31st December 1933 N P. It will be seen from the lists placed below (Flag A + B) that the percentage of Brahmins in the ministerial Establishment of the Education Department for 30th June 1933 was 77.46 in respect of persons having permanent lien and excluding Muslims in Urdu institutions, it was 77.39. Similarly in the Executive Establishment it was 48.18 including Muslims in Urdu institutions and 55.45 excluding Muslims in Urdu Institutions. The percentage of Brahmins in both the ministerial

Serial No.

and the executive for the same period ie 30th June 1933 was 49.08 including Muslims in Urdu Institutions and 56.22 excluding Muslims in Urdu Institutions.

If the latest figures available are taken ie figures for the year ending 31st December 1933 the position of the Brahmins will be as follows as regards with reference to men actually working will be as follows :—

Including Muslims in Urdu Institutions

72.17% Brahmin in the ministerial Establt
47.25% do in the Executive Establt
48.04% do in both the ministerial & the Executive Estt

Excluding Muslims in Urdu Institutions

72.09 Brahmin in the ministerial Establishment
54.44 Brahmins in the Executive Establishment
55.07 Brahmins in both the ministerial & the Executive Establishment:

It will be seen from the above that Brahmins are holding more than 70 % of appointments in the ministerial Establishment during all these years but in the Executive Establishment the position of the Non-Brahmin is much more better and they have been holding nearly 53 % of appointments if Muslims also are included in Urdu Institutions. But if Muslims are excluded from in Urdu Institutions are excluded the % age of Non-Brahmins will show a considerable fall and it will be only 45.56 %.

1) Under the Circumstances explained the Director of Public Instruction enquires whether he may issue instructions to all the subordinate unit officers of his department to follow exception 1 of Rule 20 of the G.O. no 6-105/C.R.B.1-34-1 dt 3-7-1934 viz "for one appointment in the General list there shall be two from the Special list."

be mentioned that the latest available for the Education Department in respect of men having permanent lien relate to June 1933, but information as to the strength of various Communities in the Education Department with reference to men actually holding posts is available for the year ending 31st December 1933.

3) The position of Non-Brahmins in the Education Dept. is shown in a tabular form placed below (Vide Flags N. & P.). According to the latest figures available, ie figures during the half year ending 31st December 1933, (Flag P) the percentage of the Backward Communities in both the ministerial and the executive Establishments will be 51.96% if Muslims are also in Urdu Institutions are also taken into account; but if Muslims ~~are excluded from~~ are excluded from Urdu Institutions the percentage of the Backward Communities will be only 44.93%.

4) There seems to be another point also for Consideration in this Connection, viz, in the ministerial Establishment of the Education Department, the percentage of the Backward Communities is only 27.83% if Muslims in Muslim Urdu Institutions are included; and it will be 27.91 if Muslims

are excluded. Similarly, in the executive Establishment, the percentage of Backward Communities will be 52.75 % if Muslims in Urdu Institutions are included and it will be 45.56 % if Muslims in Urdu Institutions are excluded.

5) Thus, taking the Education Department as a whole, and clubbing the ministerial and the Executive Establishment, under the revised rules, there is no distinction between a ministerial and the Executive Establishment, the percentage of Backward Communities will be 51.96 % if Muslims in Muslim Institutions are included, and it will be 44.93 % if Muslims in Muslim Institutions are excluded ~~as has been pointed out in para 3 supra~~.

6) It may also be noted that, generally in Urdu Institutions, only Muslims (Backward Community) candidates are selected even in general vacancies and that there has been a considerable no of Muslim teachers in the Urdu primary and Middle Secondary schools in the State. It is therefore for consideration whether the no of Muslims teachers in Urdu Institutions should also be taken into account in the Education Department for

1) The above Note (which is put up after working up the case, as per my instructions) shows the position ~~in this case~~, in the matter of the relative percentages of the Brahmins & the non-Brahmins employed in the Subordinate ~~ed~~ establishment (non-Gazetted staff in the Superior Service) in the Education Dept.

2) Under the Rules of Recruitment ~~(Revised Rules)~~, every fourth vacancy is a ~~the~~ General vacancy, (open to all classes) the other three being Special (reserved for candidates of backward Communities only). In departments in which ~~the~~ 50 per cent of the appts are already held by members of backward communities, two out of every three vacancies are special, the third vacancy being general: (Rule 14 (a) & (b) of the Manual of the Recruitment Rules).

H W

3) Under the Revised Rules also, there is quite a similar rule (in Rule 20) to the effect that (i) for one appointment from the general list, there shall be three from the Special list, & (ii) that, in Depts where 50 per cent of the appts are already held by members of backward Communities, there shall, for one appt in the general list be

Serial No.

two from the Special list: (vide Exception 1 to Rule 20).

11] The issue now raised is, what is the percentage of appts now held by non-Brs in the Edn. Dept, & whether, for one appt in the general list, there should be three or two from the Special list, (under the Revised Rules). The D.P.I. has raised the qn, stating that the percentage of members of backward Communities holding permanent appts in the Dept, as a whole, comes to 50.81, & enquiring whether he may instruct all the Subordinate Unit Officers of the Dept to make for one appt in the general list, two from the Special list.

1 It is seen from the latest figures* available here, that, for the Dept, as a whole, (taking both the ministerial & the executive appts) the percentage of appts held by non-Brs is 51.96.

*These figures relating to 31st December 1933.

12] Though this is so, yet, it may be noted here in regard to this Dept that this percentage of 51.96 of non-Brs in the Dept, includes in it the Muslim Teachers in the Urdu Institutions (Primary & Secondary) in the State. So far as these Urdu Institutions are concerned, the Staff generally therein is only of muslim teachers, & there are 1329 muslim teachers in the Urdu Institutions in the State. This point has to be considered &

NOTE—Contn. Sheet.

WD 01955—GFB—22,500—12-6-34

this number left out of account in the total number of appts held by non-Brs, in order to arrive at a proper percentage of appts held by non-Brs, for purposes of Rule 20, referred to, above.

13) Calculated accordingly, the percentage of backward community-members holding appts in the Dept goes down to 44.93 only. This being less than 50% ~~Three~~ Flag F Three (& not two) appts from the Special list have to be made for one appt in the general list, under the general Rule 20, (till the percentage of non-Brs exclusive of ~~the muslim teachers~~ muslim teachers in the Urdu Institutions) comes up to 50% in the Dept.)

14) Further, in the ministerial establishment of the Dept, the percentage of non-Brs, even as a whole, is only 27.83, D. (against 72.17% of Brs).

15) In this connection it may be noted that, in the present R. A. Session, ~~in connection with the question~~ the point of a very low number of non-Brs, among the Asst Insprs of Schools & the Head & the Asst Masters of Middle Schools in the State, as against the very large number of Brahmins in these appts, was also urged upon Govt, in connection with the Interpellation No. 4.

16) In these circs, the D. P. I. may

Serial No.

perhaps be informed that, as the percentage of non-Brs in the Dept, exclusive of the staff of muslim teachers in the Urdu Institutions in the State, works out to 44·93 only, the number of appts to be made from the special list, for one appt in the general list should be three, under the general Rule 20, till that percentage goes up to ~~50~~ 50, & that Exception 1 to Rule 20 does not apply now.

The Director of public Instruction Mysore, Bangalore. Letter no. A5-929-79 of 34-35 — 24-11-1934 Furnishes information as to the no and ~~percentage~~ of Madras Brahmins and Non-Brahmins holding the posts of primary School Teachers.

Refce para 18 supra.

From the latest figures available in this office ie for year ending 30th June 1934, the percentage of non-Brahmins will be 28.53, in the ministerial Establishment, 23.99, in the executive Estaeblishment and 24.75 on the whole if the no. of primary School teachers is left out. Submitted.

R.

28/11/34.

Refce:- Member's query in Para 18 above

Here are, in all, 8359 Primary School Teachers, of whom 3495 are Brahmins & 4864 non-Bs. Of these Primary ~~School~~ School Teaches are left out, in calculating the percentage of Brs & non-Brs in the Edn. Deptt. (i.e, non-gazetted staff in Superior service in the Edn. Deptt.), the position would be as noted below:-

	Brs.	non-Brs.
Ministerial:	71.47%	28.53%
Executive:	76.01%	23.99%
Both taken together:	75.25%	24.75%

Thus the

Serial No.

percentage of non-Brs would, even then, be for below 50%, & as such, the number of appointments to be made from the Special list, ~~Should~~ for ~~the~~ one appointment in the general list Should be three (& not two), till the percentage reaches 50.

So, either way, ~~the whether~~ ~~the would be the~~ percentage of non-Brahmins in the Dept; ~~Same either way, whether the~~ whether calculated exclusive of muslim teachers in the Arabic Institutions or exclusive of Primary School Teachers, is clearly below 50. In the former case, it will be 44·93 P, & in the latter, only 24·75 R%.

Anyway, the number of appts to be reg to be made from the Special list, for one appt in the general list Should be three (& not two), till the percentage goes up to 50 (exclusive of Primary School Teachers). In this view, Exception 1 to Rule 20 will not apply now.

The D.P.I. may perhaps be informed accordingly: [Vide Paras 15 to 17 above].

Dear Sir,

With reference to your D.O.letter No. 2990 dated 4th October 1934, I herewith send a copy of the letter No.26/CRB. dated 3rd July 1928 from the Secretary, Central Recruitment Board, requiring two sets of percentages in the "C" statement one including Muslims in Muslim Institutions and the other excluding Muslims in Muslim Institutions. There is no Government Order on the subject.

Yours sincerely,

Director of Public Instruction.

To

The Superintendent,
Central Recruitment Board,
Bangalore.

3281/27 -

Copy of the letter No.26 C.R.B. dated 3rd July 1928 from the Secretary Central Recruitment Board to the Director of Public Instruction in Mysore, Bangalore.

With reference to your No.L.5617 of 27-28 dated the 27th April 1928 forwarding the "C" statement showing the composition of the establishment of the Education Department for the half year ending 31st December 1927 I am directed to request that the number of Mahomedan teachers in Educational Institutions for Muslims may be separately shown and two sets of percentages furnished - one excluding the appointments in Muslim institutions (schools) and the other including the same. The enclosure to your letter under reply is herewith returned with a request that a fresh "C" statement prepared in the light of the above instructions may be kindly forwarded at a very early date, in the revised form of "C" statements prescribed in Government Order No.3320-3390/C.R.B.13-27-1, dated 16th April 1928. I am to state further that the appointments of menials and officials of inferior service are not to be included in the statistics for "C" statement.
